

THEJUS MOHANAN

Frontend Developer (React | Next.js)

North Paravoor, Ernakulam, Kerala | +91 8156970994 | thejusmohan0@gmail.com

[linkedin.com/in/thejus-mohan0](https://www.linkedin.com/in/thejus-mohan0) | github.com/Thejusmohan0

PROFESSIONAL SUMMARY

Frontend Developer skilled in building responsive, scalable web applications with React and Next.js, including AI-integrated products (Gemini API) and full-stack features spanning authentication, databases, and automated notification systems. Strong grasp of component-based architecture, REST API integration, and performance optimization, backed by a customer-facing background that sharpens communication and problem-solving under pressure.

WORK EXPERIENCE

Front-End Developer | Hippoxztech Solutions

Feb 2025 – Present

- Developed responsive, scalable web applications using React and Next.js, serving production users across multiple device types
- Built a library of reusable components with component-based architecture, reducing duplicate code across features
- Integrated RESTful APIs for dynamic data rendering, improving data-driven page responsiveness
- Implemented authentication and optimized frontend performance, improving load times and cross-browser reliability
- Collaborated using Git and CI/CD pipelines, deploying releases via Vercel

Customer Support Executive | Takyon System Solutions

2022 – 2023

- Resolved customer issues via chat and email with a 95% resolution rate
- Identified recurring issues and contributed to process improvements, reducing repeat tickets
- Strengthened communication and problem-solving skills in high-volume environments

Software Developer Intern | Shiash

Jan 2021 – May 2021

- Developed and debugged web applications using Python and Django
- Participated in code reviews and maintained coding standards
- Assisted in deployment and troubleshooting of applications

PROJECTS

FlowAi — AI-Powered Productivity App | React, Next.js, Node.js, MongoDB, Gemini AI, Clerk, Resend • flow-ai-ebon.vercel.app

- Built a full-stack productivity platform unifying tasks, habits, notes, and a calendar, with a stats dashboard tracking completion and activity across each module
- Integrated Gemini AI to auto-generate task descriptions/subtasks from a title, and to spell-check notes, reducing manual input effort
- Designed MongoDB schemas supporting subtasks, recurring calendar events, and habit streak tracking across categories (Health, Work, Learning, Personal)
- Built a scheduled background job system with Resend to send automated email reminders for due tasks and habits
- Implemented secure authentication via Clerk and full light/dark theming across the app

Homora Interiors | Next.js, React, Tailwind CSS • next-js-slxb.vercel.app

- Built a responsive web application with a modern UI, smooth animations, and optimized component-based architecture

Own Media — Photography Portfolio | Next.js, React • own-media-phi.vercel.app

- Developed a responsive portfolio with optimized image rendering and cross-device layouts

Personal Portfolio | React, Tailwind CSS • react-portfolio-gilt-xi.vercel.app

- Built an interactive portfolio with reusable components, smooth navigation, and responsive design

TECHNICAL SKILLS

Frontend: React, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Framer Motion

Backend & AI: Node.js, Django, Gemini AI API, Resend (transactional email)

Database: MongoDB, SQL

Tools & Platforms: Git, CI/CD, Vercel, Clerk

Concepts: Responsive Design, Cross-Browser Compatibility, REST API Integration, Component-Based Architecture

EDUCATION

Bachelor of Technology (B.Tech) — KMEA Engineering College, Aluva

2018 – 2021
